

## An Introductory Halal Awareness Course

The Halal industry globally is worth nearly \$3 Trillion and heavily influences the life of some 1.8 million people, yet the fundamental concepts of Halal are not widely understood even amongst Muslims. This Introductory Awareness Course to Halal is the first unit in an all encompassing curriculum to Halal to be offered by EdTrin and the Halal Industry Development Corporation of Malaysia and serves as a general introduction to what exactly Halal is and a foundation for further study.

### Course Objectives and Learning Outcomes:

Halal is any object or an action which is permissible to use or engage in, according to Islamic law. The term covers and designates not only food and drink but also all matters of daily life.

The main aim of the course is to provide a basic knowledge of Halal and Haram in the following key areas:

- Understand the general concept of Halal and Haram
- Understand the justifications within Islam on the importance of the Halal / Haram principle to Muslims
- Understand concepts of halal food and ingredients
- Application of the concepts of halal to specific foods
- Understand Halal slaughtering

The learning outcomes go beyond simply reciting facts. Learners will be asked to apply the course information to examples/scenarios.

### Content:

- The content has been approved by HDC.
- The content will be edited for suitability to an online learning environment, and to ensure broadest literacy level understanding and geographical/cultural relevance. The
- Content will be based on the assumption that learners have little or no previous knowledge of Halal.
- Additional quizzes and activities will be added to test learners understanding of content.
- No external assessment of knowledge or competency.

### Length:

The estimated average student completion time of this course is approximately 60 minutes, including the content, interactive activities, and quizzes.

**Delivery:**

The course will be delivered online and will require the use of a PC or a mobile device (Tablet or large format Smartphone).
